ENROLLMENT INFORMATION

What is the Advantage program?

The Advantage Medical Discount Program is a monthly membership; it is not insurance and may only be used at our participating locations. Advantage cannot be used if you wish to bill your insurance for the care you receive at our locations and cannot be used with any U.S. government plan, such as Medicaid or Medicare.

What are the costs of my membership?

After your 90 day pre-paid installment period is complete, membership fees are withdrawn every 30 days and will be automatically deducted from the payment details you have provided.

What is covered under my membership?

Almost all services provided at our clinics are covered, including X-rays. Your membership DOES NOT cover the following: prescription medications, durable medical equipment (crutches, splints), and services performed by outside facilities (such as specialist visits and lab work done outside the clinic). Some types of physicals and immunizations are also not covered.

Services include but are not limited to:
